# OUR STORY.

LUISS was born in 2017, inspired by countless nights spent in hotels across Europe. For founders Dana and Razvan, the difference was clear—Romanian hotels simply couldn't replicate the comfort they had experienced abroad. At the time, Dana was completing her architectural studies in Vienna, while Razvan, an engineer rooted in the wood industry, was working in Romania.

One particularly restful night in a 5-star Bavarian hotel sparked an idea: why not create a brand that brings the same luxurious comfort and relaxation not only to Romanian hotels but also to the homes of Romanian families? And so, the LUISS story began—a story of turning dreams of perfect rest into reality.

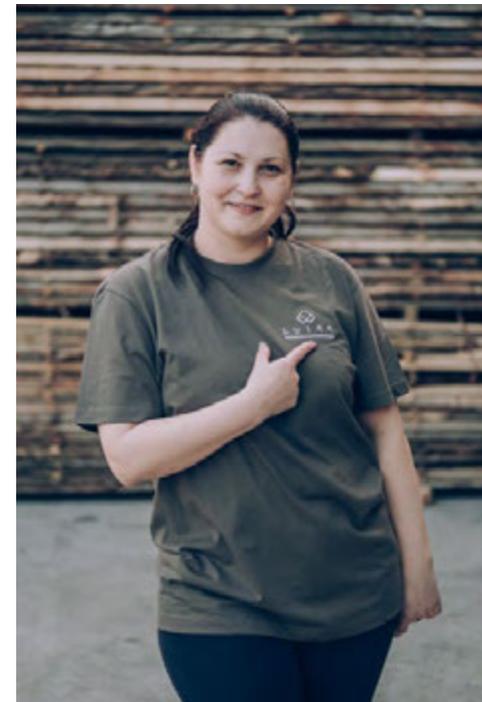

After four years of curating a portfolio of the world's most renowned brands in the Sleep & More segment—offering supremely comfortable mattresses, luxurious linens, and exquisite home fragrances—we shifted our focus to what truly lies at the heart of exceptional rest: BOXSPRING bed production. The foundation of the bed, we realized, is what transforms restless nights into rejuvenating sleep.

Today, we are proud to have produced well over 1,000 beds, crafting comfort for both extraordinary hotel projects in Romania, Austria, and Spain, and for the homes of discerning customers. These are people who understand that true quality sleep begins with thoughtful choices—from the perfect bed and mattress to the subtle, personal touches of pillows, linens, and room fragrances. With LUISS, every detail matters in creating a sanctuary of rest.

At LUISS, our mission is to offer unparalleled expertise in Sleep & More. We provide professional guidance, craft bespoke beds and mattresses tailored to your unique needs, and deliver interior design solutions exclusively dedicated to the art of the bedroom—because your space for rest deserves nothing less than perfection.

**LUISS: The comfort you once thought belonged only to your dreams, now brought to life!**

**Where to test LUISS beds and mattresses:**

**Swissotel 5\* - Poiana Braşov**

**Isabella Boutique Hotel 3\* - Sfântu-Gheorghe**

built-in lamp  
supplier: -

### IMPORTANT !

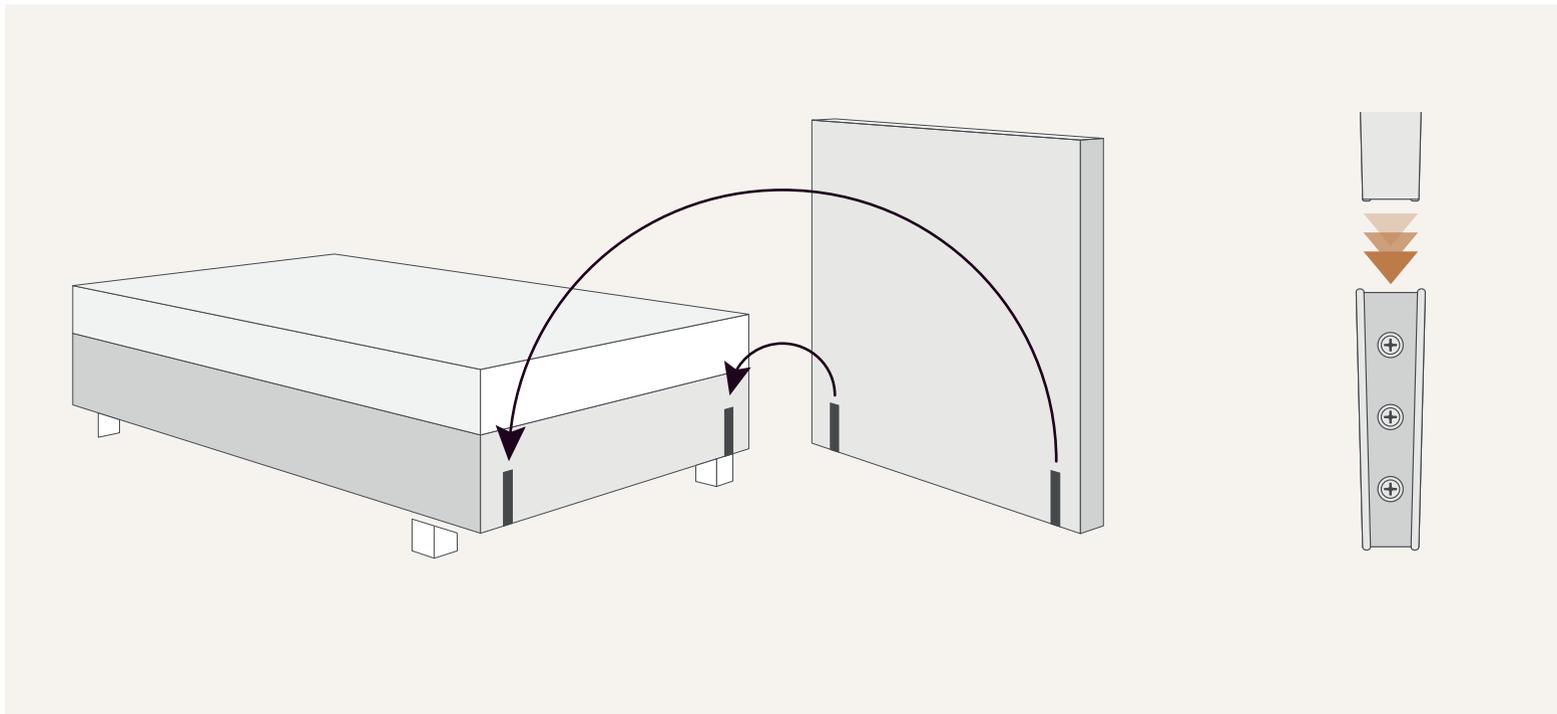

For the installation of electrical accessories, you can either use our recommended fittings or provide your own. In the latter case, we kindly ask that you send the doses, caps, and electrical fittings to our factory. For bed installation, we recommend preparing the existing electrical outlet on the wall, extending the wiring by at least 1 meter. We advise that the electrical connections be made by a licensed electrician. To ensure a smooth installation of the electrical accessories, we recommend having an electrician present on-site during the installation process.

# BED ASSEMBLY AND MOUNTING

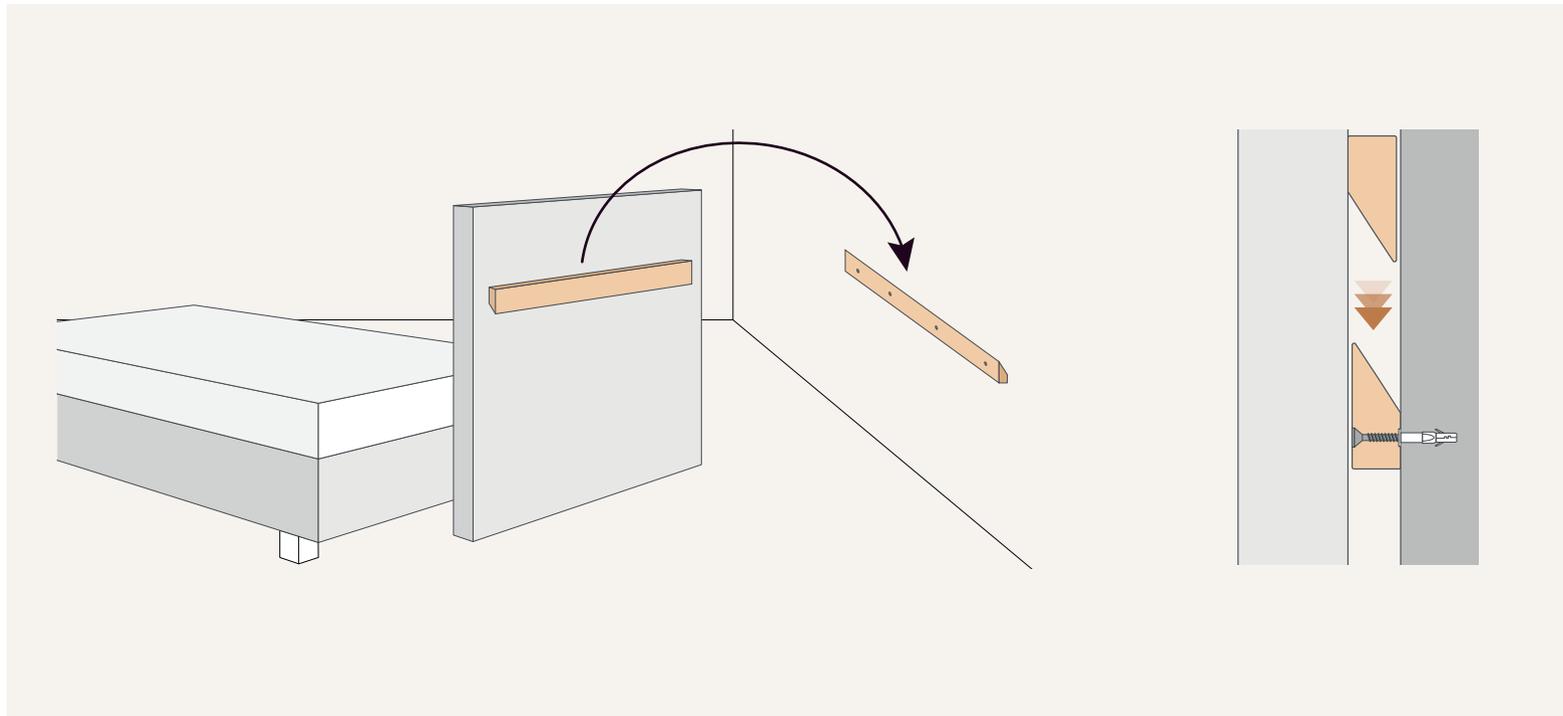

## IMPORTANT !

LUISS beds are often wall mounted due to the size and weight of the headboards. For perfect mounting, we recommend checking the flatness of the walls. A straight wall will result in a flawless installation.

## MOUNTING ON THE BED BASE
